**cromado de alta calidad**

**resistencia máxima a la corrosión**

nuestro particular proceso de cromado compuesto por 40 pasos en los que aplicamos una media de 12 micras Níquel y 0,3 micras de Cromo, garantizando una larga duración del brillo y una resistencia máxima a la corrosión. Comprobamos en laboratorio su resistencia aplicando más de 200 horas de niebla salina sin que los productos presenten ninguna alteración o defecto en la superficie

*our particular chroming process consists of 40 steps using 12 microns of nickel coating and 0.3 microns of Chrome coating, ensuring durable shine and maximum resistance to corrosion. We tests the endurance of its chrome products in the laboratory, ensuring that the product surfaces show no alterations or flaws after an application of over 200 hours of saline mist*
